# Service We Provide

We are proud to be the research/marketing consultants and contract manufacturers for few of the most renowned brands across the globe.

## **Market Research:**

We conduct a stringent market and consumer research to come up with critical insights that would be the basis of product research. Understanding consumer, major skin types of the region, common location based allergic issues and the like are the cornerstone of our development process.

## **Manufacturing:**

We are the white label manufacturer of cosmeceuticals products for many renowned brands across the globe. our facility conforms to FDA Approved ,WHO GMP & ISO 9001:2008 standards and is recognized by FICCI, SCC & the like.

## **Packaging Design:**

We help our partners with suitable packaging for the products. Our team of experts designs and manufactures the packages according to the market requirements and thereby from our clients, delivering quality products in attractive packages – ready for placement on the shelf.

## **Marketing / Branding:**

In our endeavor to offer a holistic solution to our clients, our team of experts develop a brand story for the products, draft alluring communications and suffice complete marketing solutions for the brand inclusive of trade & consumer communications.

## **Research and Development:**

Basis the identification of the need, we conduct meticulous R&D experiments with a unique blend of science & art of herbs. Our products are then tested in different conditions & cognitive analysis is made to come up with the most viable solution.
